

## How to participate in the Delphi Markets DEL distribution with MyEtherWallet

### Introduction

If this is your first ICO, the process may be a bit daunting. We would like to make it as comprehensible and straightforward as possible, so this document will show you step by step.

First thing to be aware of is that while ERC-20 tokens are a popular standard they are not supported by all wallets. We will make guides for all the wallets we know of that work well.

### The Steps:

- Contribute to the ICO
- Add the new Token type to your wallet
- Receive your tokens

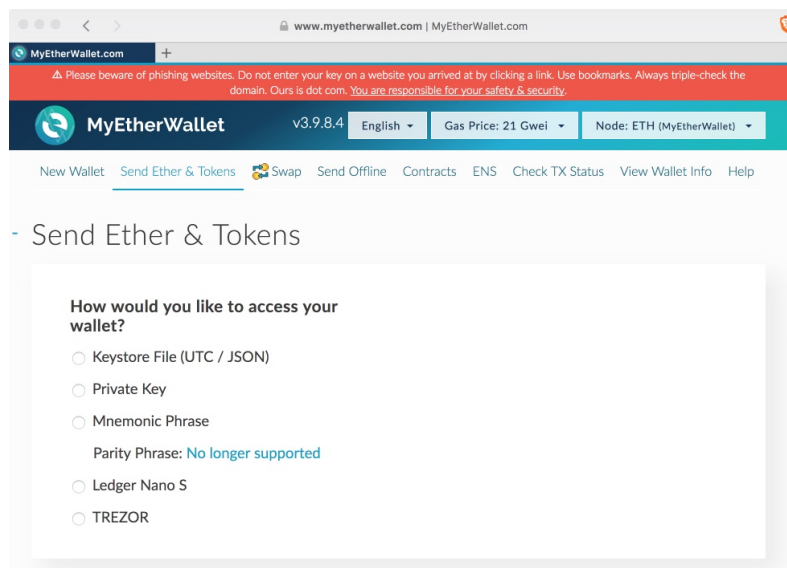

### Sign up for our mailing list

All communication about the ICO and about token distribution after the ICO will be via our mailing list. Since ICO contributions are effectively anonymous, this mailing list is the only mechanism we will have to notify you of token distribution and any other issues, along with letting you know about the projects progress.

1. Sign up at: [https://delphi.markets/#mc\\_embed\\_signup](https://delphi.markets/#mc_embed_signup)

### Contribute to the ICO

1. Visit <https://www.myetherwallet.com/> - Make sure your connection is secure.
2. Select "Send Ether & Tokens" from the menu

3. Unlock your wallet
4. Enter the FairAuction Contract address 0xfe2f0a2d25639366b19e4105068720837277e70f in “To Address”
5. **VERY IMPORTANT: Double Check this address after cut & pasting to make sure it matches the address above.**

9. Click Generate Transaction

### Add the new Token type to your wallet

1. Unlock your wallet (as described above)
2. Select “Add Custom Token” under “Token Balances”
3. For Address, enter the token contract address: 0x346c3be6aebef5cb766a75adc9827efbb7e41a
4. **VERY IMPORTANT: Double Check this address after cut & pasting to make sure it matches the address above.**

5. Token Symbol is DEL
6. Decimals is 18

The screenshot shows the MyEtherWallet.com interface. On the left, the 'Generate Transaction' form has a 'Data' field containing '0123456789abcdef' and a 'Generate Transaction' button. On the right, the sidebar displays the following information:

- Token Balances:** Includes buttons for 'Show All Tokens' and 'Add Custom Token'.
- Address:** Displays '0x346c3be6aebef5cb766a75i'.
- Token Symbol:** A text field containing 'DEL'.
- Decimals:** A text field containing '18'.
- Save:** A blue button to save the token information.
- Transaction History:** Links to 'ETH (https://etherscan.io)' and 'Tokens (Ethplorer.io)'.
- Equivalent Values:** A list of values: '0 BTC', '0 REP', '€0.00 EUR', '\$0.00 USD', and '£0.00 GBP'.

7. Click “Save”
8. When your address has DEL tokens the balance will show up.

The screenshot shows the MyEtherWallet.com interface after saving the token. The 'Generate Transaction' form on the left is identical to the previous one. The right-hand sidebar now shows updated information:

- Account Balance:** Displays '0 ETH'.
- Token Balances:** Shows a table with two columns: 'Token Symbol' and 'Balance'. The first row shows 'FUN' with a balance of '0'. The second row shows 'DEL' with a balance of '0'. Below the table are buttons for 'Show All Tokens' and 'Add Custom Token'.
- Transaction History:** Same as before, with links to 'ETH (https://etherscan.io)' and 'Tokens (Ethplorer.io)'.
- Equivalent Values:** Updated list of values: '0 BTC', '0 REP', '€0.00 EUR', '\$0.00 USD', '£0.00 GBP', and '0.00 CHF'. Below this list are buttons for 'Swap via Bitly' and 'Buy ETH w/ USD via Coinbase'.

## Receive your tokens

After the distribution period is over the tokens will be sent to the addresses from which the contributions came. We will make an announcement on the mailing list when this is complete. You can use the steps above to see these tokens in your balance.
