How to participate in the Delphi Markets DEL distribution with Parity Wallet

Introduction

If this is your first ICO, the process may be a bit daunting. We would like to make it as comprehensible and straightforward as possible, so this document will show you step by step.

First thing to be aware of is that while ERC-20 tokens are a popular standard they are not supported by all wallets. We will make guides for all the wallets we know of that work well.

The Steps:
- Contribute to the ICO
- Add the new Token type to your wallet
- Receive your tokens

Sign up for our mailing list

All communication about the ICO and about token distribution after the ICO will be via our mailing list. Since ICO contributions are effectively anonymous, this mailing list is the only mechanism we will have to notify you of token distribution and any other issues, along with letting you know about the projects progress.
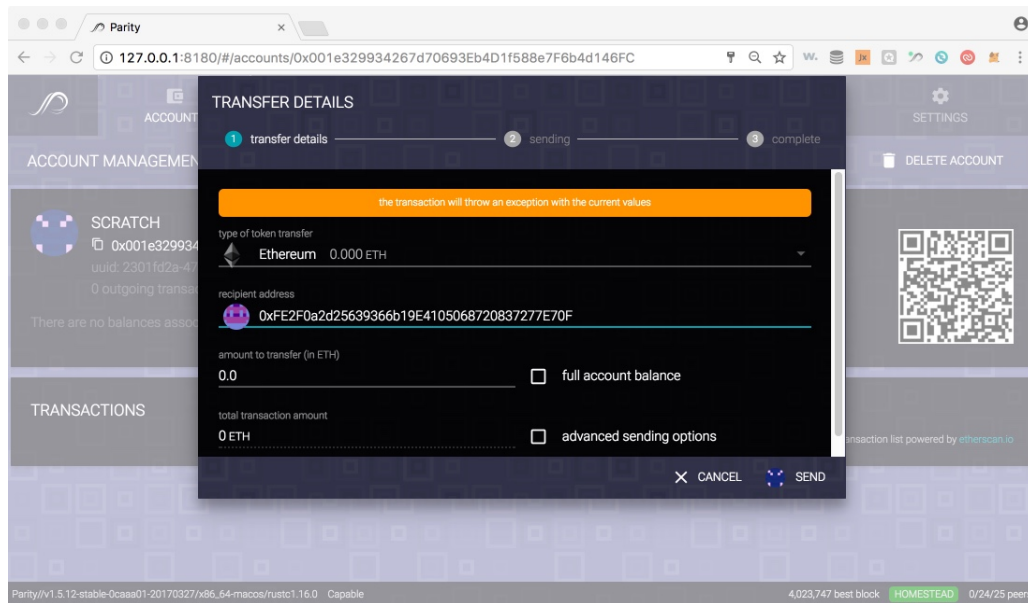

1. Sign up at: https://delphi.markets/#mc_embed_signup
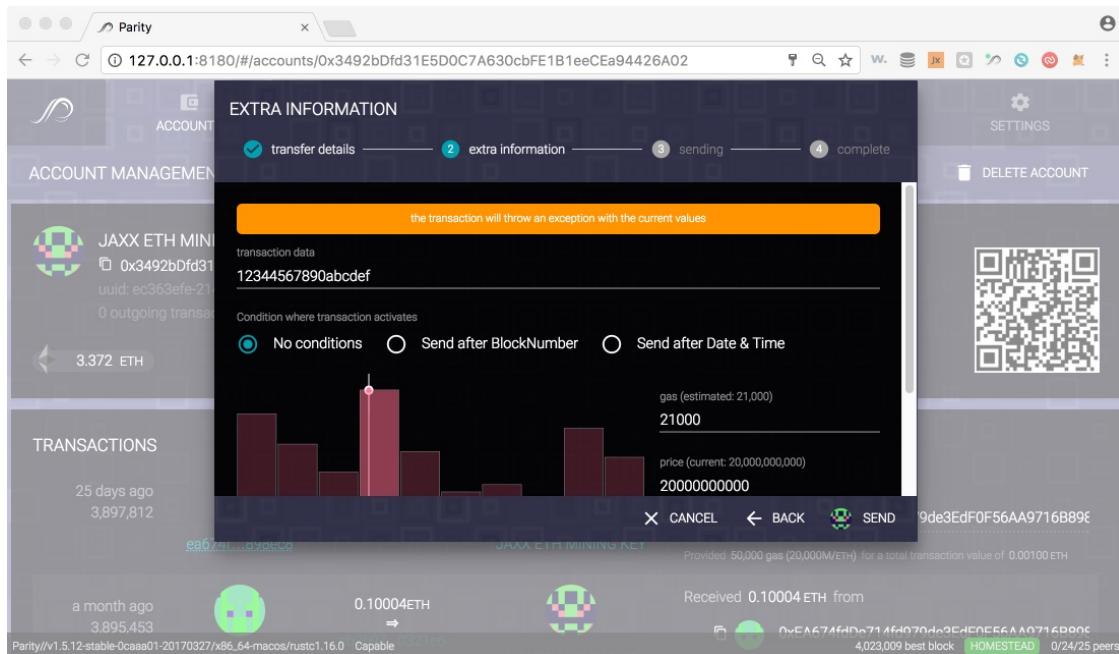

Contribute to the ICO

1. Launch your parity wallet.
2. Select the Account you want to contribute from
3. Select "Transfer" and see the Transfer dialog:

4. Enter the FairAuction Contract address 0xfe2f0a2d25639366b19e4105068720837277e70f in "Recipient Address"
5. **VERY IMPORTANT: Double Check this address after cut & pasting to make sure it matches the address above.**
6. Enter the amount to send.

7. Select "Advanced Sending Options" near the bottom of the form, and click "Next".
8. **Set your gas limit for the transaction to 100,000.**
9. (Optional) If you are using a referral code, enter the referral code under "transaction data"

10. Click "Send"

Add the new Token type to your wallet

1. Select "Contracts" from the tabs at the top of the screen
2. Click "Watch Contract"
3. Select "Token" under "Choose a Contract Type" and Click "Next"

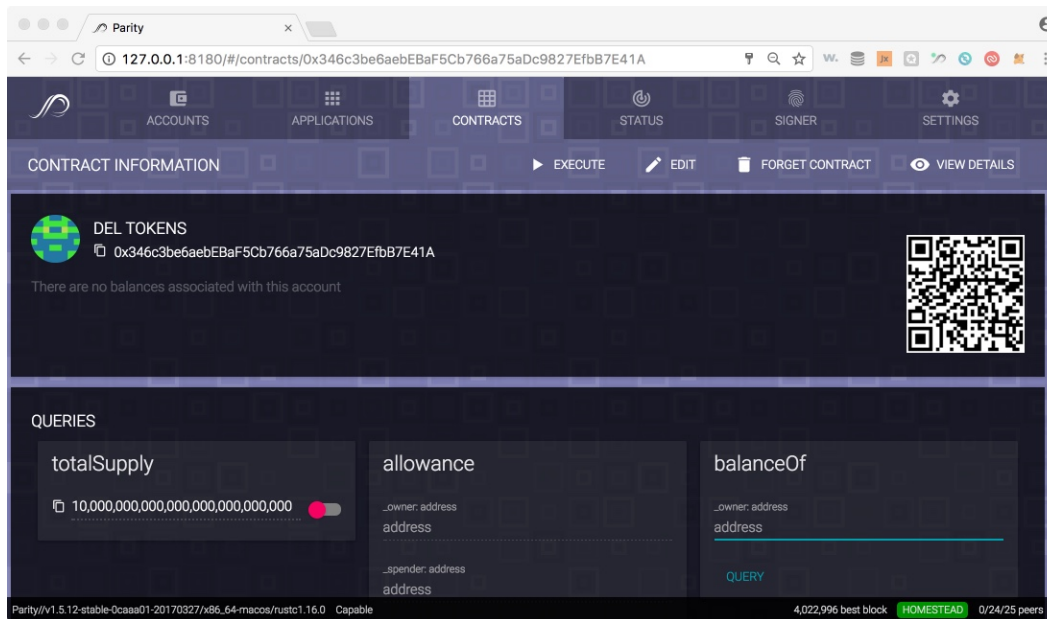

4. For Network Address, enter the token contract address:
   0x346c3be6aebebaf5cb766a75adc9827efbb7e41a
5. **VERY IMPORTANT: Double Check this address after cut & pasting to make sure it matches the address above.**

6. Token Symbol is DEL
7. Click "Add Contract"
8. Now Select the DEL Tokens Contract from your watched contracts.

9. Click on "address" under "balanceOf" and choose the address you sent your contribution from

10. When your account has been funded with DEL the balance will show here.

Receive your tokens

After the distribution period is over the tokens will be sent to the addresses from which the contributions came. We will make an announcement on the mailing list when this is complete. You can use the steps above to see these tokens in your balance.
